

Directors

The family company DF Clark Contractors was established in 1968 by Dave and Hilary Clark, after Dave qualified from Writtle College in 1966. The company provides a complete landscape design and build service as well as a full arboricultural service. In 2005 the company extended these services to provide ecological and landscaping consultancy advice, and as a result the sister company, DF Clark Bionomique, was formed in July 2007.

Dave Clark – Director

With 40 years of hands-on experience, Dave has extensive knowledge of many arboricultural, ecological and landscaping issues. He began as a tree and landscape contractor, but now manages both the contracting and consultancy business. Dave has particularly good experience of water vole mitigation and translocation schemes, having recently completed a large project in Barking, Dagenham. He currently oversees the running of a number of large projects and provides multidisciplinary help and expertise.

Hilary Clark – Director / Company Secretary

Hilary provides administrative support for DF Clark Bionomique. She has contributed extensively to the growth of the contracting business, and now to the emergence of DF Clark Bionomique. Hilary is responsible for the smooth running of the business, from personnel to accounts.
